

Week One (Maps)

June 15 – 19

Dial-in to the live streaming on Monday AND Wednesday.

Choose a time that fits your schedule. All sessions on Monday are the same. Then the sessions on Wednesday are different than Monday ... but are the same as each other. So, pick a time to dial in Monday ... and pick a time to dial in Wednesday.

9:00-9:30

9:30-10:00

10:00-10:30

10:30-11:00

On Monday, we will cover how to participate and get you started on the first topic: Maps.

On Wednesday, I will respond to questions students have asked via email or text. But also I will illustrate how to transform a topographic map into a 3-D model.

In this week's packet, you have these:

Maps – Part 1

Maps – Part 2

Topographic Map Lab
